SUMMARY

Senior React Developer specializing in React.js, TypeScript, and modern web technologies. Experienced in building and scaling enterprise applications used by millions of users, with a strong focus on frontend architecture, performance optimization, security remediation, API-driven development, and comprehensive testing. Proven ability to deliver production-grade solutions in large-scale SaaS and CRM environments.

SKILLS

- **Core Frontend:** **React**, **Next.js**, React Server Components (RSC), Server Actions, TypeScript, JavaScript (ES6+), **Redux Toolkit**, Zustand, Jotai, **Context API**, TanStack Query (React Query), **Suspense**.
- **Styling & UI:** **Tailwind CSS**, SCSS/Sass, Mantine, **Bootstrap**, shadcn/ui, Radix UI, **Responsive Design**, Design Tokens, **WCAG 2.1 AA Accessibility**.
- **Performance & Architecture:** **Micro-Frontends**, SSR, SSG, ISR, **Code Splitting**, Lazy Loading, Core Web Vitals ,Webpack, Vite, Turbopack, **Scalable Component Libraries**, Design Systems.
- **Data Visualization & Real-Time:** D3.js, Three.js, WebGL, **WebSockets**, Server-Sent Events (SSE), **GraphQL**, **REST APIs**, tRPC, OpenAPI
- **Testing & Tooling:** **Jest**, React Testing Library (RTL) , TDD, BDD, 80%+ Code Coverage
- **Security:** XSS Prevention, Content Security Policy (CSP), HttpOnly Cookies, JWT Authentication, **Secure Token Management**, OWASP Frontend Practices, Role-Based Access Control (RBAC)
- **DevOps & Tools:** Git, GitHub Actions, **CI/CD Pipelines**, Docker, pnpm, Turborepo, Nx, Agile/Scrum, Feature Flags, **Monorepo Architecture**, Figma-to-Code
- **Specialized:** Office.js (Microsoft Word Add-ins), **Agentic AI Systems**, Sanity CMS, **i18n/Localization (5 Languages)**, Accessibility Auditing, **SEO Optimization**

EXPERIENCE

Uplers (Client : Salesforce) | Senior React Developer (Client Onsite)

April 2026- Present

- Developed and delivered customer-facing features for Salesforce CRM products using React.js, TypeScript, and modern frontend architectures, contributing to applications used by millions of users worldwide.
- Designed and maintained reusable UI components while implementing comprehensive unit and integration tests with Jest and React Testing Library (RTL), improving code quality, maintainability, and release confidence.
- Identified, investigated, and remediated frontend security vulnerabilities, implementing secure coding practices, input validation, authentication safeguards, and compliance-driven security enhancements across enterprise applications.
- Collaborated with cross-functional engineering teams to integrate AI-powered capabilities, troubleshoot and resolve live customer-reported production issues, and deliver high-impact product enhancements that improved user experience and platform reliability.

- Architected and led the frontend modernization of a legal document automation platform, migrating from a legacy jQuery codebase to React, Next.js, TypeScript, and SCSS, reducing document drafting time by 90% while maintaining ~99% accuracy across 100+ enterprise clients.
- Built and scaled complex customer-facing user interfaces, including a pixel-perfect analytics dashboard from Figma designs featuring 18+ interactive charts and thousands of live data points, leveraging React, Mantine, D3.js, and performance optimization techniques to deliver a seamless user experience.
- Established a reusable component library, design system, and micro-frontend architecture using Webpack Module Federation, enabling independent deployments, accelerated development velocity, WCAG 2.1 AA accessibility compliance, and consistent UI delivery across multiple product teams.

Newmind.ai , Turkey | Senior React Developer (Remote)**May 2023- May 2024**

- Developed and scaled core frontend features for an AI-powered legal contract management platform using React, TypeScript, GraphQL, Mantine, Redux Toolkit, and Context API, delivering complex UI workflows, secure authentication flows, and high-performance user experiences across the product.
- Engineered advanced customer-facing experiences including a real-time notification system supporting 10,000+ concurrent users via Server-Sent Events (SSE), React Portals, and Redux Toolkit, alongside a data-intensive analytics platform featuring 18+ interactive D3.js and Three.js visualizations rendering thousands of live data points.
- Architected scalable frontend solutions by integrating REST and GraphQL APIs, optimizing Core Web Vitals through code splitting and lazy loading, leading code reviews and mentoring developers, and ensuring responsive, cross-browser compatible UI delivery aligned with modern engineering best practices.

OAK TREE SOFTWARE , India | React Developer**April 2022 - May 2023**

- Developed and enhanced features on the Kaleidoscope scholarship platform using React, Next.js, Redux, and JavaScript, contributing to core user-facing modules and improving overall platform functionality.
- Built an interactive drag-and-drop scholarship page builder, enabling non-technical users to create and customize scholarship pages without engineering support.
- Integrated RESTful APIs and implemented authentication and authorization flows, ensuring secure access control across the platform while maintaining responsive, cross-browser compatible UI using HTML, CSS, and JavaScript.

EDUCATION

Btech (Computer Science) | Maharshi Dayanand university , Rohtak**August 2019 - April 2023**
